ALZH

LABEL: Alzheimer's Disease End-of-Year Indicator

DESCRIPTION: This code specifies whether the beneficiary met the Chronic Condition Data Warehouse (CCW) algorithm criteria for Alzheimer's disease as of the end of the calendar year.

SHORT NAME: ALZH

LONG NAME: ALZH

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For Alzheimer's disease, beneficiaries must have at least one inpatient, SNF, home health, Part B institutional, or Part B non-institutional (carrier) claim with an Alzheimer's code in any position during the 3-year reference period.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website:

<https://www.ccwdata.org/web/guest/condition-categories>

[^ Back to TOC ^](#)

ALZHDMTA

LABEL: Alzheimer's Disease and Related Disorders or Senile Dementia End-of-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for Alzheimer's disease and related disorders or senile dementia as of the end of the calendar year.

SHORT NAME: ALZHDMTA

LONG NAME: ALZH_DEMEN

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For Alzheimer's disease and related disorders or senile dementia, beneficiaries must have at least one inpatient, SNF, home health, Part B institutional, or Part B non-institutional (carrier) claim with a related code in any position during the 3-year reference period.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website:
<https://www.ccwdata.org/web/guest/condition-categories>

ALZHDMTE

- LABEL:** Date that beneficiary first met claims criteria for the Alzheimer's disease and related disorders or senile dementia indicator
- DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the Chronic Condition Data Warehouse (CCW) Alzheimer's disease and related disorders or senile dementia indicator. The variable will be blank for beneficiaries that have never had the condition.
- SHORT NAME:** ALZHDMTE
- LONG NAME:** ALZH_DEMEN_EVER
- TYPE:** DATE
- LENGTH:** 8
- SOURCE:** CCW (derived)
- VALUES:** -
- COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).

[^ Back to TOC ^](#)

ALZHDMTM

LABEL: Alzheimer's Disease and Related Disorders or Senile Dementia Mid-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for Alzheimer's disease and related disorders or senile dementia on July 1 of the specified reference period.

SHORT NAME: ALZHDMTM

LONG NAME: ALZH_DEMEN_MID

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For Alzheimer's disease and related disorders or senile dementia, beneficiaries must have at least one inpatient, SNF, home health, Part B institutional, or Part B non-institutional (carrier) claim with a related code in any position during the 3-year reference period.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website:
<https://www.ccwdata.org/web/guest/condition-categories>

ALZHE

- LABEL:** Date that beneficiary first met claims criteria for the Alzheimer's disease indicator
- DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the Chronic Condition Data Warehouse (CCW) Alzheimer's disease indicator. The variable will be blank for beneficiaries that have never had the condition.
- SHORT NAME:** ALZHE
- LONG NAME:** ALZH_EVER
- TYPE:** DATE
- LENGTH:** 8
- SOURCE:** CCW (derived)
- VALUES:** -
- COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).

[^ Back to TOC ^](#)

ALZHM

LABEL: Alzheimer's Disease Mid-Year Indicator

DESCRIPTION: This code specifies whether the beneficiary met the Chronic Condition Data Warehouse (CCW) algorithm criteria for Alzheimer's disease on July 1 of the specified reference period.

SHORT NAME: ALZHM

LONG NAME: ALZH_MID

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For Alzheimer's disease, beneficiaries must have at least one inpatient, SNF, home health, Part B institutional, or Part B non-institutional (carrier) claim with an Alzheimer's code in any position during the 3-year reference period.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website:
<https://www.ccwdata.org/web/guest/condition-categories>

[^ Back to TOC ^](#)

AMI

LABEL: Acute Myocardial Infarction End-of-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for an acute myocardial infarction (AMI; heart attack) as of the end of the calendar year.

SHORT NAME: AMI

LONG NAME: AMI

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For heart attack, beneficiaries must have at least one inpatient claim with a heart attack diagnosis code in the first or second position during the 1-year reference period.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website:

<https://www.ccwdata.org/web/guest/condition-categories>

[^ Back to TOC ^](#)

AMIE

LABEL: Date that beneficiary first met claims criteria for the AMI indicator

DESCRIPTION: This variable shows the date when the beneficiary first met the criteria for the Chronic Condition Data Warehouse (CCW) acute myocardial infarction (AMI; heart attack) indicator. The variable will be blank for beneficiaries that have never had the condition.

SHORT NAME: AMIE

LONG NAME: AMI_EVER

TYPE: DATE

LENGTH: 8

SOURCE: CCW (derived)

VALUES: -

COMMENT: The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).

[^ Back to TOC ^](#)

AMIM

LABEL: Acute Myocardial Infarction Mid-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for an acute myocardial infarction (AMI; heart attack) on July 1 of the specified reference period.

SHORT NAME: AMIM

LONG NAME: AMI_MID

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For heart attack, beneficiaries must have at least one inpatient claim with a heart attack diagnosis code in the first or second position during the 1-year reference period.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website:

<https://www.ccwdata.org/web/guest/condition-categories>

[^ Back to TOC ^](#)

ANEMIA

LABEL: Anemia End Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for anemia as of the end of the calendar year.

SHORT NAME: ANEMIA

LONG NAME: ANEMIA

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For anemia, beneficiaries must have at least one inpatient, SNF, home health, Part B institutional, or Part B non-institutional (carrier) claim with an anemia code in any position during the 1-year reference period.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website:

<https://www.ccwdata.org/web/guest/condition-categories>

[^ Back to TOC ^](#)

ANEMIA_EVER

- LABEL:** Date that beneficiary first met claims criteria for the anemia indicator
- DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the Chronic Condition Data Warehouse (CCW) anemia indicator. The variable will be blank for beneficiaries that have never had the condition.
- SHORT NAME:** ANEMIA_EVER
- LONG NAME:** ANEMIA_EVER
- TYPE:** DATE
- LENGTH:** 8
- SOURCE:** CCW (derived)
- VALUES:** -
- COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).

[^ Back to TOC ^](#)

ANEMIA_MID

LABEL: Anemia Mid Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for anemia on July 1 of the specified reference period.

SHORT NAME: ANEMIA_MID

LONG NAME: ANEMIA_MID

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For anemia, beneficiaries must have at least one inpatient, SNF, home health, Part B institutional, or Part B non-institutional (carrier) claim with an anemia code in any position during the 1-year reference period.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website:

<https://www.ccwdata.org/web/guest/condition-categories>

[^ Back to TOC ^](#)

ASTHMA

LABEL: Asthma End Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for asthma as of the end of the calendar year.

SHORT NAME: ASTHMA

LONG NAME: ASTHMA

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For asthma, beneficiaries must have at least one inpatient, SNF, or home health claim, or two Part B (institutional or non-institutional) claims with an asthma code in any position during

the 1-year reference period. When 2 claims are required, they must occur at least one day apart.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website: <https://www.ccwdata.org/web/guest/condition-categories>

[^ Back to TOC ^](#)

ASTHMA_EVER

- LABEL:** Date that beneficiary first met claims criteria for the asthma indicator
- DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the Chronic Condition Data Warehouse (CCW) asthma indicator. The variable will be blank for beneficiaries that have never had the condition.
- SHORT NAME:** ASTHMA_EVER
- LONG NAME:** ASTHMA_EVER
- TYPE:** DATE
- LENGTH:** 8
- SOURCE:** CCW (derived)
- VALUES:** -
- COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).

[^ Back to TOC ^](#)

ASTHMA_MID

LABEL: Asthma Mid Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for asthma on July 1 of the specified reference period.

SHORT NAME: ASTHMA_MID

LONG NAME: ASTHMA_MID

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For asthma, beneficiaries must have at least one inpatient, SNF, or home health claim, or two Part B (institutional or non-institutional) claims with an asthma code in any position during the 1-year reference period. When 2 claims are required, they must occur at least one day apart.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website:
<https://www.ccwdata.org/web/guest/condition-categories>

ATRIALFB

LABEL: Atrial Fibrillation End-of-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for atrial fibrillation as of the end of the calendar year.

SHORT NAME: ATRIALFB

LONG NAME: ATRIAL_FIB

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For atrial fibrillation, beneficiaries must have at least one inpatient claim or two Part B institutional or non-institutional (carrier) claims with an atrial fibrillation code in the first or second position during the 1-year reference period. When 2 claims are required, they must occur at least one day apart.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website:
<https://www.ccwdata.org/web/guest/condition-categories>

[^ Back to TOC ^](#)

ATRIALFE

- LABEL:** Date that beneficiary first met claims criteria for the atrial fibrillation indicator
- DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the Chronic Condition Data Warehouse (CCW) atrial fibrillation indicator. The variable will be blank for beneficiaries that have never had the condition.
- SHORT NAME:** ATRIALFE
- LONG NAME:** ATRIAL_FIB_EVER
- TYPE:** DATE
- LENGTH:** 8
- SOURCE:** CCW (derived)
- VALUES:** -
- COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).

[^ Back to TOC ^](#)

ATRIALFM

LABEL: Atrial Fibrillation Mid-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for atrial fibrillation on July 1 of the specified reference period.

SHORT NAME: ATRIALFM

LONG NAME: ATRIAL_FIB_MID

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For atrial fibrillation, beneficiaries must have at least one inpatient claim or two Part B institutional or non-institutional (carrier) claims with an atrial fibrillation code in the first or second position during the 1-year reference period. When 2 claims are required, they must occur at least one day apart.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website:
<https://www.ccwdata.org/web/guest/condition-categories>

[^ Back to TOC ^](#)

BENE_ID

LABEL: Encrypted CCW Beneficiary ID

DESCRIPTION: The unique CCW identifier for a beneficiary.

The CCW assigns a unique beneficiary identification number to each individual who receives Medicare and/ or Medicaid, and uses that number to identify an individual's records in all CCW data files (e.g., Medicare claims, MAX claims, MDS assessment data).

This number does not change during a beneficiary's lifetime and each number is used only once.

The BENE_ID is specific to the CCW and is not applicable to any other identification system or data source.

SHORT NAME: BENE_ID

LONG NAME: BENE_ID

TYPE: CHAR

LENGTH: 15

SOURCE: CCW

VALUES: -

COMMENT: -

[^ Back to TOC ^](#)

CATARACT

LABEL: Cataract End-of-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for a cataract as of the end of the calendar year.

SHORT NAME: CATARACT

LONG NAME: CATARACT

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For a cataract, beneficiaries must have at least one Part B (institutional or non-institutional) claim with a cataract code in the principal position during the 1-year reference period.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website:
<https://www.ccwdata.org/web/guest/condition-categories>

[^ Back to TOC ^](#)

CATARACTE

- LABEL:** Date that beneficiary first met claims criteria for the cataract indicator
- DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the Chronic Condition Data Warehouse (CCW) cataract indicator. The variable will be blank for beneficiaries that have never had the condition.
- SHORT NAME:** CATARCTE
- LONG NAME:** CATARACT_EVER
- TYPE:** DATE
- LENGTH:** 8
- SOURCE:** CCW (derived)
- VALUES:** -
- COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).

[^ Back to TOC ^](#)

CATARACTM

LABEL: Cataract Mid-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for a cataract on July 1 of the specified reference period.

SHORT NAME: CATARCTM

LONG NAME: CATARACT_MID

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For a cataract, beneficiaries must have at least one Part B (institutional or non-institutional) claim with a cataract code in the principal position during the 1-year reference period.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website:

[^ Back to TOC ^](#)

CHF

LABEL: Heart Failure End-of-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for congestive heart failure (CHF) as of the end of the calendar year.

SHORT NAME: CHF

LONG NAME: CHF

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For congestive heart failure, beneficiaries must have at least one inpatient or Part B (institutional or non-institutional) claim with a heart failure code in any position during the 2-year reference period.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website:
<https://www.ccwdata.org/web/guest/condition-categories>

[^ Back to TOC ^](#)

CHFE

LABEL: Date that beneficiary first met claims criteria for the congestive heart failure indicator

DESCRIPTION: This variable shows the date when the beneficiary first met the criteria for the Chronic Condition Data Warehouse (CCW) congestive heart failure indicator. The variable will be blank for beneficiaries that have never had the condition.

SHORT NAME: CHFE

LONG NAME: CHF_EVER

TYPE: DATE

CHFM

LABEL: Heart Failure Mid-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for congestive heart failure (CHF) on July 1 of the specified reference period.

SHORT NAME: CHFM

LONG NAME: CHF_MID

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For congestive heart failure, beneficiaries must have at least one inpatient or Part B (institutional or non-institutional) claim with a heart failure code in any position during the 2-year reference period.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website:
<https://www.ccwdata.org/web/guest/condition-categories>

CHRNKDNE

- LABEL:** Date that beneficiary first met claims criteria for the chronic kidney disease indicator
- DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the Chronic Condition Data Warehouse (CCW) chronic kidney disease indicator. The variable will be blank for beneficiaries that have never had the condition.
- SHORT NAME:** CHRNKDNE
- LONG NAME:** CHRONICKIDNEY_EVER
- TYPE:** DATE
- LENGTH:** 8
- SOURCE:** CCW (derived)
- VALUES:** -
- COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).

[^ Back to TOC ^](#)

CHRNKDNM

LABEL: Chronic Kidney Disease Mid-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for chronic kidney disease (CKD) on July 1 of the specified reference period.

SHORT NAME: CHRNKDNM

LONG NAME: CHRONICKIDNEY_MID

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For chronic kidney disease, beneficiaries must have at least one inpatient, SNF, or home health claim, or two Part B (institutional or non-institutional) claims with a chronic kidney disease code in any position during the 2-year reference period. When 2 claims are required, they must occur at least one day apart.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website:
<https://www.ccwdata.org/web/guest/condition-categories>

CHRNKIDN

LABEL: Chronic Kidney Disease End-of-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for chronic kidney disease (CKD) as of the end of the calendar year.

SHORT NAME: CHRNKIDN

LONG NAME: CHRONICKIDNEY

DIABTESM

LABEL: Diabetes Mid-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for diabetes on July 1 of the specified reference period.

SHORT NAME: DIABTESM

LONG NAME: DIABETES_MID

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For diabetes, beneficiaries must have at least one inpatient, SNF, or home health claim, or two Part B (institutional or non-institutional) claims with a diabetes code in any position during the 2-year reference period. When 2 claims are required, they must occur at least one day apart.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website:
<https://www.ccwdata.org/web/guest/condition-categories>

[^ Back to TOC ^](#)

ENRL_SRC

LABEL: Enrollment Source

DESCRIPTION: This variable indicates the source of enrollment data.

SHORT NAME: ENRL_SRC

LONG NAME: ENRL_SRC

TYPE: CHAR

LENGTH: 3

SOURCE: CCW

VALUES: EDB = Enrollment Database
CME = Common Medicare Environment

COMMENT: The Centers for Medicare & Medicaid Services (CMS) has updated the Medicare enrollment source data for the Master Beneficiary Summary File (MBSF). As of March 2017, the MBSF includes Medicare enrollment information from the CMS Common Medicare Environment (CME) rather than the Enrollment Database (EDB). Data from the two sources was nearly identical. The CME improves the identification of Medicare Part B enrollment and also allows for more timely release of the MBSF.

The universe of beneficiaries in the CME versus the EDB version of the MBSF are only slightly different.

GLAUCMAE

- LABEL:** Date that beneficiary first met claims criteria for the glaucoma indicator
- DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the Chronic Condition Data Warehouse (CCW) glaucoma indicator. The variable will be blank for beneficiaries that have never had the condition.
- SHORT NAME:** GLAUCMAE
- LONG NAME:** GLAUCOMA_EVER
- TYPE:** DATE
- LENGTH:** 8
- SOURCE:** CCW (derived)
- VALUES:** -
- COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).

[^ Back to TOC ^](#)

GLAUCMAM

LABEL: Glaucoma Mid-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for glaucoma on July 1 of the specified reference period.

SHORT NAME: GLAUCMAM

LONG NAME: GLAUCOMA_MID

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For glaucoma, beneficiaries must have at least one Part B non-institutional claim with a glaucoma code in the principal position during the 1-year reference period.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website:
<https://www.ccwdata.org/web/guest/condition-categories>

[^ Back to TOC ^](#)

GLAUCOMA

LABEL: Glaucoma End-of-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for glaucoma as of the end of the calendar year.

SHORT NAME: GLAUCOMA

LONG NAME: GLAUCOMA

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For glaucoma, beneficiaries must have at least one Part B non-institutional claim with a glaucoma code in the principal position during the 1-year reference period.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website:

[^ Back to TOC ^](#)

HIPFRAC

LABEL: Hip/Pelvic Fracture End-of-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for a hip/pelvic fracture as of the end of the calendar year.

SHORT NAME: HIPFRAC

LONG NAME: HIP_FRACTURE

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For hip/pelvic fractures, beneficiaries must have at least one inpatient or SNF claim with a hip/pelvic fracture code in any position during the 1-year reference period.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website:
<https://www.ccwdata.org/web/guest/condition-categories>

[^ Back to TOC ^](#)

HIPFRACE

LABEL: Date that beneficiary first met claims criteria for the hip/pelvic fracture indicator

DESCRIPTION: This variable shows the date when the beneficiary first met the criteria for the Chronic Condition Data Warehouse (CCW) hip/pelvic fracture indicator. The variable will be blank for beneficiaries that have never had the condition.

SHORT NAME: HIPFRACE

LONG NAME: HIP_FRACTURE_EVER

TYPE: DATE

LENGTH: 8

SOURCE: CCW (derived)

VALUES: -

COMMENT: The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).

[^ Back to TOC ^](#)

HIPFRACM

LABEL: Hip/Pelvic Fracture Mid-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for a hip/pelvic fracture on July 1 of the specified reference period.

SHORT NAME: HIPFRACM

LONG NAME: HIP_FRACTURE_MID

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For hip/pelvic fractures, beneficiaries must have at least one inpatient or SNF claim with a hip/pelvic fracture code in any position during the 1-year reference period.

RA_OA_E

LABEL: Date that beneficiary first met claims criteria for the rheumatoid arthritis/osteoarthritis indicator

DESCRIPTION: This variable shows the date when the beneficiary first met the criteria for the Chronic Condition Data Warehouse (CCW) rheumatoid arthritis/osteoarthritis indicator. The variable will be blank for beneficiaries that have never had the condition.

SHORT NAME: RA_OA_E

LONG NAME: RA_OA_EVER

TYPE: DATE

LENGTH: 8

SOURCE: CCW (derived)

VALUES: -

COMMENT: The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).

RA_OA_M

LABEL: Rheumatoid Arthritis / Osteoarthritis Mid-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for rheumatoid arthritis/osteoarthritis on July 1 of the specified reference period.

SHORT NAME: RA_OA_M

LONG NAME: RA_OA_MID

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For rheumatoid arthritis/osteoarthritis, beneficiaries must have at least two inpatient, SNF, home health, or Part B (institutional or non-institutional) claims that are at least one day apart with a rheumatoid arthritis/osteoarthritis code in any position during the 2-year reference period.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website:
<https://www.ccwdata.org/web/guest/condition-categories>

RFRNC_YR

LABEL: Reference Year

DESCRIPTION: This field indicates the reference year of the enrollment data.

SHORT NAME: RFRNC_YR

LONG NAME: BENE_ENROLLMT_REF_YR

TYPE: NUM

LENGTH: 4

SOURCE: CMS Enrollment Database (EDB)

VALUES: 1999 - current data year

COMMENT: The data files are partitioned into calendar year files.

STRKETIA

LABEL: Stroke / Transient Ischemic Attack End-of-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Data Warehouse (CCW) criteria for stroke / transient ischemic attack (TIA) as of the end of the calendar year.

SHORT NAME: STRKETIA

LONG NAME: STROKE_TIA

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For stroke/TIA, beneficiaries must have at least one inpatient claim or two Part B (institutional or non-institutional) claims with a stroke/TIA code in any position during the 1-year reference period. When 2 claims are required, they must occur at least one day apart.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website:
<https://www.ccwdata.org/web/guest/condition-categories>

STRKTIAE

LABEL: Date that beneficiary first met claims criteria for the stroke indicator

DESCRIPTION: This variable shows the date when the beneficiary first met the criteria for the Chronic Condition Data Warehouse (CCW) stroke / transient ischemic attack (TIA) indicator. The variable will be blank for beneficiaries that have never had the condition.

SHORT NAME: STRKTIAE

LONG NAME: STROKE_TIA_EVER

TYPE: DATE

LENGTH: 8

SOURCE: CCW (derived)

VALUES: -

COMMENT: The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
