Tips on Navigating the Codebook

This document is a detailed codebook that describes each variable in the Medicare Beneficiary Summary File (MBSF) — 27 CCW Chronic Condition (CC) research files. We have included several ways for users to quickly find the information they need:

- A complete listing of all variables in the files, in alphabetical order based on their SAS variable names.
- Individual entries for each variable contain a short description of the variable, the possible values for the variable, and, in many cases, comments discussing the variable construction and use.

Hyperlinks are included throughout the codebook to make it easier for users to navigate between the table of contents and the detailed entries for the individual variables:

- Clicking on any variable name in the Table of Contents will take you to the detailed description for that variable.
- From the detailed description for any individual variable, clicking on the "Back to TOC" link after each variable description will take you back to the Table of Contents.
Table of Contents

This section of the codebook contains a list of all variables in alphabetical order based on the SAS variable name.

Variable Details

This section of the codebook contains one entry for each variable in the Medicare Beneficiary Summary File (MBSF) 27 CCW Chronic Conditions (CC) files. Each entry contains variable details to facilitate understanding and use of the variables.

**ALZH**

**LABEL:** Alzheimer's Disease End-of-Year Indicator

**DESCRIPTION:** This code specifies whether the beneficiary met the Chronic Condition Warehouse (CCW) algorithm criteria for Alzheimer's disease as of the end of the calendar year.

**SHORT NAME:** ALZH

**LONG NAME:** ALZH

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**
0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The CCW’s chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For Alzheimer’s disease, beneficiaries must have at least one inpatient, SNF, home health, Part B institutional, or Part B non-institutional (carrier) claim with an Alzheimer’s code in any position during the three-year reference period.

The CCW’s criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website: [https://www.ccwdata.org/web/guest/condition-categories](https://www.ccwdata.org/web/guest/condition-categories)
**ALZH_DEMEN**

**LABEL:** Alzheimer's Disease and Related Disorders or Senile Dementia End-of-Year Indicator

**DESCRIPTION:** This variable indicates whether a beneficiary met the Chronic Condition Warehouse (CCW) criteria for Alzheimer's disease and related disorders or senile dementia as of the end of the calendar year.

**SHORT NAME:** ALZHDMA

**LONG NAME:** ALZH_DEMEN

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**
- 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
- 1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
- 2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
- 3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The CCW’s chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For Alzheimer's disease and related disorders or senile dementia, beneficiaries must have at least one inpatient, SNF, home health, Part B institutional, or Part B non-institutional (carrier) claim with a related code in any position during the three-year reference period.

The CCW’s criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website: [https://www.ccwdata.org/web/guest/condition-categories](https://www.ccwdata.org/web/guest/condition-categories)

[^ Back to TOC ^]
**ALZH_DEMEN_EVER**

**LABEL:** Date that beneficiary first met claims criteria for the Alzheimer's disease and related disorders or senile dementia indicator

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the Chronic Condition Warehouse (CCW) Alzheimer's disease and related disorders or senile dementia indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** ALZHDMTE

**LONG NAME:** ALZH_DEMEN_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** —

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
**ALZH_DEMEN_MID**

**LABEL:** Alzheimer's Disease and Related Disorders or Senile Dementia Mid-Year Indicator

**DESCRIPTION:** This variable indicates whether a beneficiary met the Chronic Condition Warehouse (CCW) criteria for Alzheimer's disease and related disorders or senile dementia on July 1 of the specified reference period.

**SHORT NAME:** ALZHDMMT

**LONG NAME:** ALZH_DEMEN_MID

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**
- 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
- 1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
- 2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
- 3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For Alzheimer's disease and related disorders or senile dementia, beneficiaries must have at least one inpatient, SNF, home health, Part B institutional, or Part B non-institutional (carrier) claim with a related code in any position during the three-year reference period.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website: [https://www.ccwdata.org/web/guest/condition-categories](https://www.ccwdata.org/web/guest/condition-categories)

[^ Back to TOC ^]
**ALZH_EVER**

**LABEL:** Date that beneficiary first met claims criteria for the Alzheimer's disease indicator

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the Chronic Condition Warehouse (CCW) Alzheimer's disease indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** ALZHE

**LONG NAME:** ALZH_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** —

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
ALZH_MID

LABEL: Alzheimer's Disease Mid-Year Indicator

DESCRIPTION: This code specifies whether the beneficiary met the Chronic Condition Warehouse (CCW) algorithm criteria for Alzheimer's disease on July 1 of the specified reference period.

SHORT NAME: ALZH

LONG NAME: ALZH_MID

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For Alzheimer's disease, beneficiaries must have at least one inpatient, SNF, home health, Part B institutional, or Part B non-institutional (carrier) claim with an Alzheimer's code in any position during the three-year reference period.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website: https://www.ccwdata.org/web/guest/condition-categories
**AMI**

**LABEL:** Acute Myocardial Infarction End-of-Year Indicator

**DESCRIPTION:** This variable indicates whether a beneficiary met the Chronic Condition Warehouse (CCW) criteria for an acute myocardial infarction (AMI; heart attack) as of the end of the calendar year.

**SHORT NAME:** AMI

**LONG NAME:** AMI

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**
0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The CCW’s chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For heart attack, beneficiaries must have at least one inpatient claim with a heart attack diagnosis code in the first or second position during the one-year reference period.

The CCW’s criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website: [https://www.ccwdata.org/web/guest/condition-categories](https://www.ccwdata.org/web/guest/condition-categories)

[^ Back to TOC ^]
**AMI_EVER**

**LABEL:** Date that beneficiary first met claims criteria for the AMI indicator

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the Chronic Condition Warehouse (CCW) acute myocardial infarction (AMI; heart attack) indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** AMIE

**LONG NAME:** AMI_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** —

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
**AMI_MID**

**LABEL:** Acute Myocardial Infarction Mid-Year Indicator

**DESCRIPTION:** This variable indicates whether a beneficiary met the Chronic Condition Warehouse (CCW) criteria for an acute myocardial infarction (AMI; heart attack) on July 1 of the specified reference period.

**SHORT NAME:** AMIM

**LONG NAME:** AMI_MID

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**
- 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
- 1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
- 2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
- 3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The CCW's chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For heart attack, beneficiaries must have at least one inpatient claim with a heart attack diagnosis code in the first or second position during the one-year reference period.

The CCW's criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website: [https://www.ccwdata.org/web/guest/condition-categories](https://www.ccwdata.org/web/guest/condition-categories)
ANEMIA

LABEL: Anemia End Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Warehouse (CCW) criteria for anemia as of the end of the calendar year.

SHORT NAME: ANEMIA

LONG NAME: ANEMIA

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES:
0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW’s chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For anemia, beneficiaries must have at least one inpatient, SNF, home health, Part B institutional, or Part B non-institutional (carrier) claim with an anemia code in any position during the one-year reference period.

The CCW’s criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website: https://www.ccwdata.org/web/guest/condition-categories

**ANEMIA_EVER**

**LABEL:** Date that beneficiary first met claims criteria for the anemia indicator

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the Chronic Condition Warehouse (CCW) anemia indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** ANEMIA_EVER

**LONG NAME:** ANEMIA_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** —

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
**ANEMIA_MID**

**LABEL:** Anemia Mid-Year Indicator

**DESCRIPTION:** This variable indicates whether a beneficiary met the Chronic Condition Warehouse (CCW) criteria for anemia on July 1 of the specified reference period.

**SHORT NAME:** ANEMIA_MID

**LONG NAME:** ANEMIA_MID

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**
- 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
- 1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
- 2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
- 3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The CCW’s chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For anemia, beneficiaries must have at least one inpatient, SNF, home health, Part B institutional, or Part B non-institutional (carrier) claim with an anemia code in any position during the one-year reference period.

The CCW’s criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website: https://www.ccwdata.org/web/guest/condition-categories

[^ Back to TOC ^]
ASTHMA

LABEL: Asthma End Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Warehouse (CCW) criteria for asthma as of the end of the calendar year.

SHORT NAME: ASTHMA

LONG NAME: ASTHMA

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage 1 = Beneficiary met claims criteria but did not have sufficient FFS coverage 2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage 3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW’s chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For asthma, beneficiaries must have at least one inpatient, SNF, or home health claim, or two-Part B (institutional or non-institutional) claims with an asthma code in any position during the one-year reference period. When two claims are required, they must occur at least one day apart.

The CCW’s criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website: https://www.ccwdata.org/web/guest/condition-categories

**ASTHMA_EVER**

**LABEL:** Date that beneficiary first met claims criteria for the asthma indicator

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the Chronic Condition Warehouse (CCW) asthma indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** ASTHMA_EVER

**LONG NAME:** ASTHMA_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** —

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).

[^Back to TOC^]
**ASTHMA_MID**

**LABEL:** Asthma Mid-Year Indicator

**DESCRIPTION:** This variable indicates whether a beneficiary met the Chronic Condition Warehouse (CCW) criteria for asthma on July 1 of the specified reference period.

**SHORT NAME:** ASTHMA_MID

**LONG NAME:** ASTHMA_MID

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**
0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The CCW’s chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For asthma, beneficiaries must have at least one inpatient, SNF, or home health claim, or two-Part B (institutional or non-institutional) claims with an asthma code in any position during the one-year reference period. When two claims are required, they must occur at least one day apart.

The CCW’s criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website: [https://www.ccwdata.org/web/guest/condition-categories](https://www.ccwdata.org/web/guest/condition-categories)
ATRIAL_FIB

LABEL: Atrial Fibrillation End-of-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Warehouse (CCW) criteria for atrial fibrillation as of the end of the calendar year.

SHORT NAME: ATRIALFB

LONG NAME: ATRIAL_FIB

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES:
0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW’s chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period). For atrial fibrillation, beneficiaries must have at least one inpatient claim or two-Part B institutional or non-institutional (carrier) claims with an atrial fibrillation code in the first or second position during the one-year reference period. When two claims are required, they must occur at least one day apart.

The CCW’s criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website: https://www.ccwdata.org/web/guest/condition-categories

^ Back to TOC ^
**ATRIAL_FIB_EVER**

**LABEL:** Date that beneficiary first met claims criteria for the atrial fibrillation indicator

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the Chronic Condition Warehouse (CCW) atrial fibrillation indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** ATRIALFE

**LONG NAME:** ATRIAL_FIB_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** —

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
**ATRIAL_FIB_MID**

**LABEL:** Atrial Fibrillation Mid-Year Indicator

**DESCRIPTION:** This variable indicates whether a beneficiary met the Chronic Condition Warehouse (CCW) criteria for atrial fibrillation on July 1 of the specified reference period.

**SHORT NAME:** ATRIALFM

**LONG NAME:** ATRIAL_FIB_MID

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**
- 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
- 1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
- 2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
- 3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:**

The CCW’s chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For atrial fibrillation, beneficiaries must have at least one inpatient claim or two-Part B institutional or non-institutional (carrier) claims with an atrial fibrillation code in the first or second position during the one-year reference period. When two claims are required, they must occur at least one day apart.

The CCW’s criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website: [https://www.ccwdata.org/web/guest/condition-categories](https://www.ccwdata.org/web/guest/condition-categories)
**BENE_ENROLLMT_REF_YR**

**LABEL:** Reference Year

**DESCRIPTION:** This field indicates the reference year of the enrollment data.

**SHORT NAME:** RFRNC_YR

**LONG NAME:** BENE_ENROLLMT_REF_YR

**TYPE:** NUM

**LENGTH:** 4

**SOURCE:** CMS Enrollment Database (EDB)

**VALUES:** 1999–current data year

**COMMENT:** The data files are partitioned into calendar year files.
**BENE_ID**

**LABEL:** Encrypted CCW Beneficiary ID

**DESCRIPTION:** The unique CCW identifier for a beneficiary.

The CCW assigns a unique beneficiary identification number to each individual who receives Medicare and/or Medicaid and uses that number to identify an individual’s records in all CCW data files (e.g., Medicare claims, MAX claims, MDS assessment data).

This number does not change during a beneficiary’s lifetime and each number is used only once.

The BENE_ID is specific to the CCW and is not applicable to any other identification system or data source.

**SHORT NAME:** BENE_ID

**LONG NAME:** BENE_ID

**TYPE:** CHAR

**LENGTH:** 15

**SOURCE:** CCW

**VALUES:** —

**COMMENT:** —
**CANCER_BREAST**

**LABEL:** Breast Cancer End-of-Year Indicator

**DESCRIPTION:** This variable indicates whether a beneficiary met the Chronic Condition Warehouse (CCW) criteria for breast cancer (female or male) as of the end of the calendar year.

**SHORT NAME:** CNCRBRST

**LONG NAME:** CANCER_BREAST

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**
- 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
- 1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
- 2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
- 3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The CCW’s chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For breast cancer, beneficiaries must have at least one inpatient or SNF claim, or two-Part B (institutional or non-institutional) claims that are at least one day apart with a breast cancer code in any position during the one-year reference period. When two claims are required, they must occur at least one day apart.

The CCW’s criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website: [https://www.ccwdata.org/web/guest/condition-categories](https://www.ccwdata.org/web/guest/condition-categories)
**CANCER_BREAST_EVER**

**LABEL:** Date that beneficiary first met claims criteria for female/male breast cancer indicator

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the Chronic Condition Warehouse (CCW) breast cancer (female or male) indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** CNGCRBRSE

**LONG NAME:** CANCER_BREAST_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** —

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
CANCER_BREAST_MID

LABEL: Breast Cancer Mid-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Warehouse (CCW) criteria for breast cancer (female or male) on July 1 of the specified reference period.

SHORT NAME: CNCRBRSM

LONG NAME: CANCER_BREAST_MID

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 
0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW’s chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For breast cancer, beneficiaries must have at least one inpatient or SNF claim, or two-Part B (institutional or non-institutional) claims that are at least one day apart with a breast cancer code in any position during the one-year reference period. When two claims are required, they must occur at least one day apart.

The CCW’s criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website: https://www.ccwdata.org/web/guest/condition-categories

**SOURCE:** CCW (derived)

**VALUES:**
- 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
- 1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
- 2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
- 3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The CCW’s chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For COPD and bronchiectasis, beneficiaries must have at least one inpatient, SNF, or home health claim, or two-Part B (institutional or non-institutional) claims with a COPD code in any position during the one-year reference period. When two claims are required, they must occur at least one day apart.

The CCW’s criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website: [https://www.ccwdata.org/web/guest/condition-categories](https://www.ccwdata.org/web/guest/condition-categories)
DEPRESSION

LABEL: Depression End-of-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Warehouse (CCW) criteria for depression as of the end of the calendar year.

SHORT NAME: DEPRESSN

LONG NAME: DEPRESSION

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW’s chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For depression, beneficiaries must have at least one inpatient, SNF, home health, or Part B (institutional or non-institutional) claim with a depression code in any position during the one-year reference period.

The CCW’s criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website: https://www.ccwdata.org/web/guest/condition-categories

DEPRESSION_EVER

LABEL: Date that beneficiary first met claims criteria for the depression indicator

DESCRIPTION: This variable shows the date when the beneficiary first met the criteria for the Chronic Condition Warehouse (CCW) depression indicator. The variable will be blank for beneficiaries that have never had the condition.

SHORT NAME: DEPRSSNE

LONG NAME: DEPRESSION_EVER

TYPE: DATE

LENGTH: 8

SOURCE: CCW (derived)

VALUES: —

COMMENT: The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
**DEPRESSION_MID**

**LABEL:** Depression Mid-Year Indicator

**DESCRIPTION:** This variable indicates whether a beneficiary met the Chronic Condition Warehouse (CCW) criteria for depression on July 1 of the specified reference period.

**SHORT NAME:** DEPRSSNM

**LONG NAME:** DEPRESSION_MID

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**
- 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
- 1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
- 2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
- 3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:**

The CCW’s chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For depression, beneficiaries must have at least one inpatient, SNF, home health, or Part B (institutional or non-institutional) claim with a depression code in any position during the one-year reference period.

The CCW’s criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. [^ Back to TOC ^]
**ENRL_SRC**

**LABEL:** Enrollment Source

**DESCRIPTION:** This variable indicates the source of enrollment data.

**SHORT NAME:** ENRL_SRC

**LONG NAME:** ENRL_SRC

**TYPE:** CHAR

**LENGTH:** 3

**SOURCE:** CCW

**VALUES:**
- EDB = Enrollment Database
- CME = Common Medicare Environment

**COMMENT:** The Centers for Medicare & Medicaid Services (CMS) has updated the Medicare enrollment source data for the Master Beneficiary Summary File (MBSF). As of March 2017, the MBSF includes Medicare enrollment information from the CMS Common Medicare Environment (CME) rather than the Enrollment Database (EDB). Data from the two sources was nearly identical. The CME improves the identification of Medicare Part B enrollment and also allows for more timely release of the MBSF.

The universe of beneficiaries in the CME versus the EDB version of the MBSF are only slightly different.
GLAUCOMA

LABEL: Glaucoma End-of-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Warehouse (CCW) criteria for glaucoma as of the end of the calendar year.

SHORT NAME: GLAUCOMA

LONG NAME: GLAUCOMA

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW’s chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For depression, beneficiaries must have at least one inpatient, SNF, home health, or Part B (institutional or non-institutional) claim with a depression code in any position during the one-year reference period.

The CCW’s criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website: https://www.ccwdata.org/web/guest/condition-categories
**GLAUCOMA_EVER**

**LABEL:** Date that beneficiary first met claims criteria for the glaucoma indicator

ISCHEMICHEART

LABEL: Ischemic Heart Disease End-of-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Warehouse (CCW) criteria for ischemic heart disease (IHD) as of the end of the calendar year.

SHORT NAME: ISCHMCHT

LONG NAME: ISCHEMICHEART

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW’s chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For ischemic heart disease, beneficiaries must have at least one inpatient, SNF, home health, or Part B (institutional or non-institutional) claim with an ischemic heart disease code in any position during the two-year reference period.

The CCW’s criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website: https://www.ccwdata.org/web/guest/condition-categories
**ISCHEMICHEART_EVER**

**LABEL:** Date that beneficiary first met claims criteria for the ischemic heart disease indicator

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the Chronic Condition Warehouse (CCW) ischemic heart disease (IHD) indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** ISCHMCHE

**LONG NAME:** ISCHEMICHEART_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** —

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).

^ Back to TOC ^
**ISCHEMICHEART_MID**

**LABEL:** Ischemic Heart Disease Mid-Year Indicator

**DESCRIPTION:** This variable indicates whether a beneficiary met the Chronic Condition Warehouse (CCW) criteria for ischemic heart disease (IHD) on July 1 of the specified reference period.

**SHORT NAME:** ISCHMCHM

**LONG NAME:** ISCHEMICHEART_MID

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**
- 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
- 1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
- 2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
- 3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The CCW’s chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For ischemic heart disease, beneficiaries must have at least one inpatient, SNF, home health, or Part B (institutional or non-institutional) claim with an ischemic heart disease code in any position during the two-year reference period.

The CCW’s criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website: [https://www.ccwdata.org/web/guest/condition-categories](https://www.ccwdata.org/web/guest/condition-categories)
OSTEOPOROSIS

LABEL: Osteoporosis End-of-Year Indicator

DESCRIPTION: This variable indicates whether a beneficiary met the Chronic Condition Warehouse (CCW) criteria for osteoporosis as of the end of the calendar year.

SHORT NAME: OSTEOPRS

LONG NAME: OSTEOPOROSIS

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW’s chronic condition flags require beneficiaries to satisfy both claims criteria (a minimum number/type of claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Part A and Part B coverage during the entire specified time period).

For osteoporosis, beneficiaries must have at least one inpatient, SNF, or home health claim, or two-Part B (institutional or non-institutional) claims, with an osteoporosis code in any position during the one-year reference period. When two claims are required, they must occur at least one day apart.

The CCW’s criteria were developed after reviewing validated algorithms from the research literature and criteria used by other federal data sources. You can find more detailed information on the criteria on the CCW website: https://www.ccwdata.org/web/guest/condition-categories
