ACP_MEDICARE

**LABEL:** ADHD and Other Conduct Disorders Indicator - Medicare Only Data

**DESCRIPTION:** This code specifies whether the enrollee met the chronic condition algorithm criteria, considering only Medicare data, for having attention deficit hyperactivity disorder (ADHD) or other conduct disorders as of the end of the calendar year.

**SHORT NAME:** ACP_MEDICARE

**LONG NAME:** ACP_MEDICARE

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**

- 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
- 1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
- 2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
- 3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The CCW’s other chronic or potentially disabling condition variables require enrollees to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Medicare Part A and Part B coverage during the entire specified time period).

For ADHD and other conduct disorders, beneficiaries must have at least one inpatient claim or two other non-drug claims of any service type with a related code in any position during the 2-year reference period. When 2 claims are required, they must occur at least one day apart.

You can find more detailed information on the algorithm criteria on the CCW website: [https://www.ccwdata.org/web/guest/condition-categories](https://www.ccwdata.org/web/guest/condition-categories)

^ Back to TOC ^
**ACP_MEDICARE_EVER**

**LABEL:** ADHD and Other Conduct Disorders First Ever Occurrence Date - Medicare Only Claims

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the attention deficit hyperactivity disorder (ADHD) or other conduct disorders indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** ACP_MEDICARE_EVER

**LONG NAME:** ACP_MEDICARE_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** -

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
ALCO_MEDICARE

LABEL: Alcohol Use Disorders Indicator - Medicare Only Data

DESCRIPTION: This code specifies whether the enrollee met the chronic condition algorithm criteria, considering only Medicare data, for having alcohol use disorder as of the end of the calendar year.

SHORT NAME: ALCO_MEDICARE

LONG NAME: ALCO_MEDICARE

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW’s other chronic or potentially disabling condition variables require enrollees to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Medicare Part A and Part B coverage during the entire specified time period).

For alcohol use disorders, beneficiaries must have at least one inpatient claim or two other non-drug claims of any service type with a related code in any position during the 2-year reference period. When 2 claims are required, they must occur at least one day apart.

You can find more detailed information on the algorithm criteria on the CCW website: https://www.ccwdata.org/web/guest/condition-categories

**ALCO_MEDICARE_EVER**

**LABEL:** Alcohol Use Disorders First Ever Occurrence Date - Medicare Only Claims

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the alcohol use disorders indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** ALCO_MEDICARE_EVER

**LONG NAME:** ALCO_MEDICARE_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** -

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).

[^ Back to TOC ^]
**ANXI_MEDICARE**

**LABEL:** Anxiety Disorders Indicator - Medicare Only Data

**DESCRIPTION:** This variable indicates whether the enrollee met the chronic condition algorithm criteria, considering only Medicare data, for anxiety disorders as of the end of the calendar year.

**SHORT NAME:** ANXI_MEDICARE

**LONG NAME:** ANXI_MEDICARE

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**

0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The CCW’s other chronic or potentially disabling condition variables require enrollees to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For anxiety disorders, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the 2-year reference period. When 2 claims are required, they must occur at least one day apart.

**ANXI_MEDICARE_EVER**

**LABEL:** Anxiety Disorders First Ever Occurrence Date - Medicare Only Claims

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the anxiety disorders indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** ANXI_MEDICARE_EVER

**LONG NAME:** ANXI_MEDICARE_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** -

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
AUTISM_MEDICARE

LABEL: Autism Indicator - Medicare-Only Data

DESCRIPTION: This variable indicates whether the enrollee met the chronic condition algorithm criteria, considering only Medicare data, for autism spectrum disorders as of the end of the calendar year.

SHORT NAME: AUTISM_MEDICARE

LONG NAME: AUTISM_MEDICARE

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES:
0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW’s other chronic or potentially disabling condition variables require enrollees to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For autism spectrum disorders, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the 2-year reference period. When 2 claims are required, they must occur at least one day apart.

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
**BIPL_MEDICARE**

**LABEL:** Bipolar Disorder Indicator - Medicare Only Data

**DESCRIPTION:** This variable indicates whether the enrollee met the chronic condition algorithm criteria, considering only Medicare data, for bipolar disorders as of the end of the calendar year.

**SHORT NAME:** BIPL_MEDICARE

**LONG NAME:** BIPL_MEDICARE

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**
- 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
- 1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
- 2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
- 3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The CCW’s other chronic or potentially disabling condition variables require enrollees to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For bipolar disorders, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the 2-year reference period. When 2 claims are required, they must occur at least one day apart.

**BRAINJ_MEDICARE**

**LABEL:** Traumatic Brain Injury and Nonpsychotic Mental Disorders due to Brain Damage End-of-Year Indicator - Medicare Only Claims

**DESCRIPTION:** This variable indicates whether a beneficiary met the condition criteria for traumatic brain injury and nonpsychotic mental disorders as of the end of the calendar year.

**SHORT NAME:** BRAINJ_MEDICARE

**LONG NAME:** BRAINJ_MEDICARE

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**
- 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
- 1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
- 2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
- 3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The condition variable requires beneficiaries to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For traumatic brain injury and nonpsychotic mental disorders, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the 2-year reference period. **CERPAL_MEDICARE**

**LABEL:** Cerebral Palsy End-of-Year Indicator - Medicare Only Claims

**DESCRIPTION:** This variable indicates whether a beneficiary met the condition criteria for cerebral palsy as of the end of the calendar year.

**SHORT NAME:** CERPAL_MEDICARE

**LONG NAME:** CERPAL_MEDICARE

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**

0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The condition variable requires beneficiaries to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For cerebral palsy, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the 2-year reference period. When 2 claims are required, they must occur at least one day apart.

You can find more detailed information on the criteria on the CCW website: [https://www.ccwdata.org/web/guest/condition-categories](https://www.ccwdata.org/web/guest/condition-categories)
**CERPAL_MEDICARE_EVER**

**LABEL:** Cerebral Palsy First Ever Occurrence Date - Medicare Only Claims

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the cerebral palsy indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** CERPAL_MEDICARE_EVER

**LONG NAME:** CERPAL_MEDICARE_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** -

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).

[^ Back to TOC ^]
CYSFIB_MEDICARE

LABEL: Cystic Fibrosis and Other Metabolic Developmental Disorders End-of-Year Indicator - Medicare Only Claims

DESCRIPTION: This variable indicates whether a beneficiary met the condition criteria for cystic fibrosis and other metabolic developmental disorders as of the end of the calendar year.

SHORT NAME: CYSFIB_MEDICARE

LONG NAME: CYSFIB_MEDICARE

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The condition variable requires beneficiaries to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For cystic fibrosis and other metabolic developmental disorders, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the 2-year reference period. When 2 claims are required, they must occur at least one day apart.

You can find more detailed information on the criteria on the CCW website: https://www.ccwdata.org/web/guest/condition-categories

^ Back to TOC ^
CYSFIB_MEDICARE_EVER

LABEL: Cystic Fibrosis and Other Metabolic Developmental Disorders First Ever Occurrence Date - Medicare Only Claims

DESCRIPTION: This variable shows the date when the beneficiary first met the criteria for the cystic fibrosis and other metabolic developmental disorders indicator. The variable will be blank for beneficiaries that have never had the condition.

SHORT NAME: CYSFIB_MEDICARE_EVER

LONG NAME: CYSFIB_MEDICARE_EVER

TYPE: DATE

LENGTH: 8

SOURCE: CCW (derived)

VALUES: -

COMMENT: The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
DEPSN_MEDICARE

**LABEL:** Major Depressive Affective Disorder End-of-Year Indicator - Medicare Only Claims

**DESCRIPTION:** This variable indicates whether a beneficiary met the condition criteria for major depressive affective disorder as of the end of the calendar year.

**SHORT NAME:** DEPSN_MEDICARE

**LONG NAME:** DEPSN_MEDICARE

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**
- 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
- 1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
- 2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
- 3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The condition variable requires beneficiaries to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For major depressive affective disorder, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the 2-year reference period. When 2 claims are required, they must occur at least one day apart.

Note that this depressive affective disorder condition definition is slightly different than the CCW depression condition; this depressive affective disorder condition was specified by CMS to enhance research of the Medicare-Medicaid dually enrolled population.

You can find more detailed information on the criteria on the CCW website: [https://www.ccwdata.org/web/guest/condition-categories](https://www.ccwdata.org/web/guest/condition-categories)
DEPSN_MEDICARE_EVER

LABEL: Major Depressive Affective Disorder First Ever Occurrence Date - Medicare Only Claims

DESCRIPTION: This variable shows the date when the beneficiary first met the criteria for the major depressive affective disorder indicator. The variable will be blank for beneficiaries that have never had the condition.

SHORT NAME: DEPSN_MEDICARE_EVER

LONG NAME: DEPSN_MEDICARE_EVER

TYPE: DATE

LENGTH: 8

SOURCE: CCW (derived)

VALUES: -

COMMENT: The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
DRUG_MEDICARE

LABEL: Drug Use Disorder End-of-Year Indicator - Medicare Only Claims

DESCRIPTION: This variable indicates whether a beneficiary met the condition criteria for drug use disorder as of the end of the calendar year.

SHORT NAME: DRUG_MEDICARE

LONG NAME: DRUG_MEDICARE

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The condition variable requires beneficiaries to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For drug use disorder, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the 2-year reference period. When 2 claims are required, they must occur at least one day apart.

You can find more detailed information on the criteria on the CCW website: https://www.ccwdata.org/web/guest/condition-categories

^ Back to TOC ^
**DRUG_MEDICARE_EVER**

**LABEL:** Drug Use Disorder First Ever Occurrence Date - Medicare Only Claims

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the drug use disorder indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** DRUG_MEDICARE_EVER

**LONG NAME:** DRUG_MEDICARE_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** -

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
ENRL_SRC

LABEL: Enrollment Source

DESCRIPTION: This variable indicates the source of enrollment data.

SHORT NAME: ENRL_SRC

LONG NAME: ENRL_SRC

TYPE: CHAR

LENGTH: 3

SOURCE: CCW

VALUES: EDB = Enrollment Database
         CME = Common Medicare Environment

COMMENT: The Centers for Medicare & Medicaid Services (CMS) has updated the Medicare enrollment source data for the Master Beneficiary Summary File (MBSF). As of March 2017, the MBSF includes Medicare enrollment information from the CMS Common Medicare Environment (CME) rather than the Enrollment Database (EDB). Data from the two sources was nearly identical. The CME improves the identification of Medicare Part B enrollment and also allows for more timely release of the MBSF.

The universe of beneficiaries in the CME versus the EDB version of the MBSF are only slightly different.
**EPILEP_MEDICARE**

**LABEL:** Epilepsy End-of-Year Indicator - Medicare Only Claims

**DESCRIPTION:** This variable indicates whether a beneficiary met the condition criteria for epilepsy as of the end of the calendar year.

**SHORT NAME:** EPILEP_MEDICARE

**LONG NAME:** EPILEP_MEDICARE

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**

0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The condition variable requires beneficiaries to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For epilepsy, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the 2-year reference period. When 2 claims are required, they must occur at least one day apart.

You can find more detailed information on the criteria on the CCW website: [https://www.ccwdata.org/web/guest/condition-categories](https://www.ccwdata.org/web/guest/condition-categories)
**EPILEP_MEDICARE_EVER**

**LABEL:** Epilepsy First Ever Occurrence Date - Medicare Only Claims

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the epilepsy indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** EPILEP_MEDICARE_EVER

**LONG NAME:** EPILEP_MEDICARE_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** -

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
FIBRO_MEDICARE

LABEL: Fibromyalgia, Chronic Pain and Fatigue End-of-Year Indicator - Medicare Only Claims

DESCRIPTION: This variable indicates whether a beneficiary met the condition criteria for fibromyalgia, chronic pain and fatigue as of the end of the calendar year.

SHORT NAME: FIBRO_MEDICARE

LONG NAME: FIBRO_MEDICARE

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The condition variable requires beneficiaries to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For fibromyalgia, chronic pain and fatigue, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the 2-year reference period. When 2 claims are required, they must occur at least one day apart.

You can find more detailed information on the criteria on the CCW website: https://www.ccwdata.org/web/guest/condition-categories
FIBRO_MEDICARE_EVER

LABEL: Fibromyalgia, Chronic Pain and Fatigue First Ever Occurrence Date - Medicare Only Claims

DESCRIPTION: This variable shows the date when the beneficiary first met the criteria for the fibromyalgia, chronic pain and fatigue indicator. The variable will be blank for beneficiaries that have never had the condition.

SHORT NAME: FIBRO_MEDICARE_EVER

LONG NAME: FIBRO_MEDICARE_EVER

OUD_ANY_MEDICARE

LABEL: Overarching OUD Disorder (Any of the Three Sub-Indicators) - Medicare Only Claims

DESCRIPTION: This variable is the Overarching Opioid Use Disorder (OUD) indicator, which identifies whether a beneficiary met any of the three opioid-related sub-Indicators as of the end of the calendar year. Beneficiaries who were identified as meeting the criteria for any of the following, also meet the criteria for this overarching indicator: OUD_DX_MEDICARE, OUD_HOSP_MEDICARE, or OUD_MAT_MEDICARE.

SHORT NAME: OUD_ANY_MEDICARE

LONG NAME: OUD_ANY_MEDICARE

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The condition variable requires beneficiaries to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For the overarching opioid use disorder indicator, beneficiaries must have met the criteria for at least one of the three opioid-use disorder sub-category conditions:

- Diagnosis and Procedure Basis for OUD (OUD_DX_MEDICARE),
- Opioid-Related Hospitalization or ED (OUD_HOSP_MEDICARE), or
- Use of Medication-Assisted Treatment (MAT) (OUD_MAT_MEDICARE).

^ Back to TOC ^
**OUD_ANY_MEDICARE_EVER**

**LABEL:** Overarching OUD Disorder (Any of the Three Sub-Indicators) First Ever Occurrence Date- Medicare Only Claims

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the Overarching opioid use disorder (OUD) condition indicator (Any of the Three Sub-Indicators). The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** OUD_ANY_MEDICARE_EVER

**LONG NAME:** OUD_ANY MEDICARE_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** -

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).

For the overarching opioid use disorder indicator, beneficiaries must have met the criteria for at least one of the three opioid-use disorder sub-category conditions, and therefore had the corresponding "*_EVER" variable populated:

- Diagnosis and Procedure Basis for OUD - First Ever Occurrence Date (OUD_DX_MEDICARE_EVER),
- Opioid-Related Hospitalization or ED - First Ever Occurrence Date (OUD_HOSP_MEDICARE_EVER), or
- Use of Medication-Assisted Treatment (MAT) - First Ever Occurrence Date (OUD_MAT_MEDICARE_EVER).
OUD_DX_MEDICARE

LABEL: Diagnosis and Procedure Basis for OUD- Medicare Only Claims

DESCRIPTION: This variable indicates whether a beneficiary met the Diagnosis and Procedure Basis for Opioid Use Disorder (OUD) as of the end of the calendar year.

SHORT NAME: OUD_DX_MEDICARE

LONG NAME: OUD_DX_MEDICARE

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The condition variable requires beneficiaries to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For opioid use disorder, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the 2-year reference period. When 2 claims are required, they must occur at least one day apart.

You can find more detailed information on the criteria on the CCW website: https://www.ccwdata.org/web/guest/condition-categories
**OUD_DX_MEDICARE_EVER**

**LABEL:** Diagnosis and Procedure Basis for OUD First Ever Occurrence Date- Medicare Only Claims

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the opioid use disorder (OUD) indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** OUD_DX_MEDICARE_EVER

**LONG NAME:** OUD_DX MEDICARE_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** -

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
OUD_HOSP_MEDICARE

LABEL: Opioid-Related Hospitalization or ED- Medicare Only Claims

DESCRIPTION: This variable indicates whether a beneficiary met the criteria for Opioid-Related Hospitalization or emergency department (ED) visits as of the end of the calendar year.

SHORT NAME: OUD_HOSP_MEDICARE

LONG NAME: OUD_HOSP_MEDICARE

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage

1 = Beneficiary met claims criteria but did not have sufficient FFS coverage

2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage

3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The condition variable requires beneficiaries to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For opioid-related hospitalization or ED visits, beneficiaries must have at least one Medicare inpatient claim or one emergency department claim with a related code in any position during the 2-year reference period.

You can find more detailed information on the criteria on the CCW website: https://www.ccwdata.org/web/guest/condition-categories
OUD_HOSP_MEDICARE_EVER

LABEL: Opioid-Related Hospitalization or ED First Ever Occurrence Date- Medicare Only Claims

DESCRIPTION: This variable shows the date when the beneficiary first met the criteria for the Opioid-Related Hospitalization or emergency department (ED) visit indicator. The variable will be blank for beneficiaries that have never had the condition.

SHORT NAME: OUD_HOSP_MEDICARE_EVER

LONG NAME: OUD_HOSP_MEDICARE_EVER

TYPE: DATE

LENGTH: 8

SOURCE: CCW (derived)

VALUES: -

COMMENT: The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
**OUD_MAT_MEDICARE**

**LABEL:** Use of Medication-Assisted Treatment (MAT) - Medicare Only Claims

**DESCRIPTION:** This variable indicates whether a beneficiary met the criteria for the Use of Medication-Assisted Treatment (MAT) as of the end of the calendar year.

**SHORT NAME:** OUD_MAT_MEDICARE

**LONG NAME:** OUD_MAT_MEDICARE

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**
- 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
- 1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
- 2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
- 3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The condition variable requires beneficiaries to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For use of Medication-Assisted Treatment (MAT), beneficiaries must have one or more drug claim (Medicare Part B, Medicare Part D, and/or Medicaid) with an NDC (national drug code) for opioid-MAT or one or more non-drug claim (Medicare Part B or Medicaid non-drug claim) with a HCPCs code during the two year period.

You can find more detailed information on the criteria on the CCW website: [https://www.ccwdata.org/web/guest/condition-categories](https://www.ccwdata.org/web/guest/condition-categories)
**OUD_MAT_MEDICARE_EVER**

**LABEL:** Use of Medication-Assisted Treatment (MAT) First Ever Occurrence Date- Medicare Only Claims

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the utilization of Medication-Assisted Treatment (MAT) indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** OUD_MAT_MEDICARE_EVER

**LONG NAME:** OUD_MAT MEDICARE_EVER
