Tips on Navigating the Codebook

This document is a detailed codebook that describes each variable in the Medicare Beneficiary Summary File (MBSF) — Other Chronic or Potentially Disabling Conditions Segment research files. We have included several ways for users to quickly find the information they need:

- A complete listing of all variables in the files, in alphabetical order based on their SAS variable names.
- Individual entries for each variable contain a short description of the variable, the possible values for the variable, and, in many cases, comments discussing the variable construction and use.

Hyperlinks are included throughout the codebook to make it easier for users to navigate between the table of contents and the detailed entries for the individual variables:

- Clicking on any variable name in the Table of Contents will take you to the detailed description for that variable.
- From the detailed description for any individual variable, clicking on the Back to TOC link after each variable description will take you back to the Table of Contents.

**Variable Details**

This section of the Codebook contains one entry for each variable in the Medicare Beneficiary Summary File (MBSF) Other Chronic or Potentially Disabling Conditions segment files. Each entry contains variable details to facilitate understanding and use of the variables.

**ACP_MEDICARE**

**LABEL:** ADHD and Other Conduct Disorders Indicator – Medicare Only Data

**DESCRIPTION:** This code specifies whether the enrollee met the chronic condition algorithm criteria, considering only Medicare data, for having attention deficit hyperactivity disorder (ADHD) or other conduct disorders as of the end of the calendar year.

**SHORT NAME:** ACP_MEDICARE

**LONG NAME:** ACP_MEDICARE

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**
- 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
- 1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
- 2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
- 3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The CCW’s other chronic or potentially disabling condition variables require enrollees to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Medicare Part A and Part B coverage during the entire specified time period).

For ADHD and other conduct disorders, beneficiaries must have at least one inpatient claim or two other non-drug claims of any service type with a related code in any position during the two-year reference period. When two claims are required, they must occur at least one day apart.

You can find more detailed information on the algorithm criteria on the CCW website: [https://www.ccwdata.org/web/guest/condition-categories](https://www.ccwdata.org/web/guest/condition-categories)
**ACP_MEDICARE_EVER**

**LABEL:** ADHD and Other Conduct Disorders First Ever Occurrence Date — Medicare Only Claims

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the attention deficit hyperactivity disorder (ADHD) or other conduct disorders indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** ACP_MEDICARE_EVER

**LONG NAME:** ACP_MEDICARE_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** —

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
ALCO_MEDICARE

LABEL: Alcohol Use Disorders Indicator — Medicare Only Data

DESCRIPTION: This code specifies whether the enrollee met the chronic condition algorithm criteria, considering only Medicare data, for having alcohol use disorder as of the end of the calendar year.

SHORT NAME: ALCO_MEDICARE

LONG NAME: ALCO_MEDICARE

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW’s other chronic or potentially disabling condition variables require enrollees to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (FFS Medicare Part A and Part B coverage during the entire specified time period).

For alcohol use disorders, beneficiaries must have at least one inpatient claim or two other non-drug claims of any service type with a related code in any position during the two-year reference period. When two claims are required, they must occur at least one day apart.

You can find more detailed information on the algorithm criteria on the CCW website: https://www.ccwdata.org/web/guest/condition-categories
**ALCO_MEDICARE_EVER**

**LABEL:** Alcohol Use Disorders First Ever Occurrence Date — Medicare Only Claims

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the alcohol use disorders indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** ALCO_MEDICARE_EVER

**LONG NAME:** ALCO_MEDICARE_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** —

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
**ANXI_MEDICARE**

**LABEL:** Anxiety Disorders Indicator — Medicare Only Data

**DESCRIPTION:** This variable indicates whether the enrollee met the chronic condition algorithm criteria, considering only Medicare data, for anxiety disorders as of the end of the calendar year.

**SHORT NAME:** ANXI_MEDICARE

**LONG NAME:** ANXI_MEDICARE

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**

0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The CCW’s other chronic or potentially disabling condition variables require enrollees to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For anxiety disorders, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the two-year reference period. When two claims are required, they must occur at least one day apart.

You can find more detailed information on the criteria on the CCW website: https://www.ccwdata.org/web/guest/condition-categories

[^ Back to TOC ^]
**ANXI_MEDICARE_EVER**

**LABEL:** Anxiety Disorders First Ever Occurrence Date — Medicare Only Claims

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the anxiety disorders indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** ANXI_MEDICARE_EVER

**LONG NAME:** ANXI_MEDICARE_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** —

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
AUTISM_MEDICARE

LABEL: Autism Spectrum Disorders Indicator — Medicare Only Data

DESCRIPTION: This variable indicates whether the enrollee met the chronic condition algorithm criteria, considering only Medicare data, for autism spectrum disorders as of the end of the calendar year.

SHORT NAME: AUTISM_MEDICARE

LONG NAME: AUTISM_MEDICARE

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES:  
0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage  
1 = Beneficiary met claims criteria but did not have sufficient FFS coverage  
2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage  
3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW’s other chronic or potentially disabling condition variables require enrollees to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For autism spectrum disorders, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the two-year reference period. When two claims are required, they must occur at least one day apart.

You can find more detailed information on the criteria on the CCW website:  
https://www.ccwdata.org/web/guest/condition-categories

**AUTISM_MEDICARE_EVER**

**LABEL:** Autism Spectrum Disorders First Ever Occurrence Date — Medicare Only Claims

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the autism spectrum disorders indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** AUTISM_MEDICARE_EVER

**LONG NAME:** AUTISM_MEDICARE_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** —

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
BIPL_MEDICARE

LABEL: Bipolar Disorder Indicator — Medicare Only Data

DESCRIPTION: This variable indicates whether the enrollee met the chronic condition algorithm criteria, considering only Medicare data, for bipolar disorders as of the end of the calendar year.

SHORT NAME: BIPL_MEDICARE

LONG NAME: BIPL_MEDICARE

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The CCW’s other chronic or potentially disabling condition variables require enrollees to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For bipolar disorders, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the two-year reference period. When two claims are required, they must occur at least one day apart.

You can find more detailed information on the criteria on the CCW website: https://www.ccwdata.org/web/guest/condition-categories
### BIPL_MEDICARE_EVER

**LABEL:** Bipolar Disorder First Ever Occurrence Date — Medicare Only Claims

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the bipolar disorders indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** BIPL_MEDICARE_EVER

**LONG NAME:** BIPL_MEDICARE_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** —

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).

[^ Back to TOC ^]
BRAINJ_MEDICARE

LABEL: Traumatic Brain Injury and Nonpsychotic Mental Disorders due to Brain Damage End-of-Year Indicator — Medicare Only Claims

DESCRIPTION: This variable indicates whether a beneficiary met the condition criteria for traumatic brain injury and nonpsychotic mental disorders as of the end of the calendar year.

SHORT NAME: BRAINJ_MEDICARE

LONG NAME: BRAINJ_MEDICARE

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage 1 = Beneficiary met claims criteria but did not have sufficient FFS coverage 2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage 3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The condition variable requires beneficiaries to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For traumatic brain injury and nonpsychotic mental disorders, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the two-year reference period. When two claims are required, they must occur at least one day apart.

You can find more detailed information on the criteria on the CCW website: https://www.ccwdata.org/web/guest/condition-categories

BRAINJ_MEDICARE_EVER

LABEL: Traumatic Brain Injury and Nonpsychotic Mental Disorders due to Brain Damage First Ever Occurrence Date — Medicare Only Claims

DESCRIPTION: This variable shows the date when the beneficiary first met the criteria for the traumatic brain injury and nonpsychotic mental disorders indicator. The variable will be blank for beneficiaries that have never had the condition.

SHORT NAME: BRAINJ_MEDICARE_EVER

LONG NAME: BRAINJ_MEDICARE_EVER

TYPE: DATE

LENGTH: 8

SOURCE: CCW (derived)

VALUES: —

COMMENT: The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
**CERPAL_Medicare**

**LABEL:**
Cerebral Palsy End-of-Year Indicator — Medicare Only Claims

**DESCRIPTION:**
This variable indicates whether a beneficiary met the condition criteria for cerebral palsy as of the end of the calendar year.

**SHORT NAME:**
CERPAL_Medicare

**LONG NAME:**
CERPAL_Medicare

**TYPE:**
NUM

**LENGTH:**
1

**SOURCE:**
CCW (derived)

**VALUES:**
0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:**
The condition variable requires beneficiaries to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For cerebral palsy, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the two-year reference period. When two claims are required, they must occur at least one day apart.

You can find more detailed information on the criteria on the CCW website: [https://www.ccwdata.org/web/guest/condition-categories](https://www.ccwdata.org/web/guest/condition-categories)
**CERPAL_MEDICARE_EVER**

**LABEL:** Cerebral Palsy First Ever Occurrence Date — Medicare Only Claims

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the cerebral palsy indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** CERPAL_MEDICARE_EVER

**LONG NAME:** CERPAL_MEDICARE_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** —

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).

[^ Back to TOC ^]
**CYSFIB_MEDICARE**

**LABEL:** Cystic Fibrosis and Other Metabolic Developmental Disorders End-of-Year Indicator — Medicare Only Claims

**DESCRIPTION:** This variable indicates whether a beneficiary met the condition criteria for cystic fibrosis and other metabolic developmental disorders as of the end of the calendar year.

**SHORT NAME:** CYSFIB_MEDICARE

**LONG NAME:** CYSFIB_MEDICARE

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**
0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The condition variable requires beneficiaries to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For cystic fibrosis and other metabolic developmental disorders, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the two-year reference period. When two claims are required, they must occur at least one day apart.

You can find more detailed information on the criteria on the CCW website: [https://www.ccwdata.org/web/guest/condition-categories](https://www.ccwdata.org/web/guest/condition-categories)

[^ Back to TOC ^]
**CYSFIB_MEDICARE_EVER**

**LABEL:** Cystic Fibrosis and Other Metabolic Developmental Disorders First Ever Occurrence Date — Medicare Only Claims

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the cystic fibrosis and other metabolic developmental disorders indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** CYSFIB_MEDICARE_EVER

**LONG NAME:** CYSFIB_MEDICARE_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** —

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
DEPSN_MEDICARE

LABEL: Major Depressive Disorders End-of-Year Indicator — Medicare Only Claims

DESCRIPTION: This variable indicates whether a beneficiary met the condition criteria for major depressive disorders as of the end of the calendar year. (On the CCW website, we shorten this condition label to “Depressive Disorders” for simplicity.)

SHORT NAME: DEPSN_MEDICARE

LONG NAME: DEPSN_MEDICARE

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage 1 = Beneficiary met claims criteria but did not have sufficient FFS coverage 2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage 3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The condition variable requires beneficiaries to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For major depressive disorders, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the two-year reference period. When two claims are required, they must occur at least one day apart.

NOTE: This depressive disorders condition definition is slightly different than the CCW depression condition; this depressive affective disorder condition was specified by CMS to enhance research of the Medicare-Medicaid dually enrolled population.

You can find more detailed information on the criteria on the CCW website: https://www.ccwdata.org/web/guest/condition-categories

^ Back to TOC ^
**DEPSN_MEDICAREEVER**

**LABEL:** Major Depressive Disorders First Ever Occurrence Date — Medicare Only Claims

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the major depressive disorders indicator. The variable will be blank for beneficiaries that have never had the condition. (On the CCW website, we shorten this condition label to “Depressive Disorders” for simplicity.)

**SHORT NAME:** DEPSN_MEDICAREEVER

**LONG NAME:** DEPSN_MEDICAREEVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** —

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
**DRUG_MEDICARE**

**LABEL:** Drug Use Disorders End-of-Year Indicator — Medicare Only Claims

**DESCRIPTION:** This variable indicates whether a beneficiary met the condition criteria for drug use disorder as of the end of the calendar year.

**SHORT NAME:** DRUG_MEDICARE

**LONG NAME:** DRUG_MEDICARE

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**
- 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
- 1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
- 2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
- 3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The condition variable requires beneficiaries to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For drug use disorders, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the two-year reference period. When two claims are required, they must occur at least one day apart.

You can find more detailed information on the criteria on the CCW website: [https://www.ccwdata.org/web/guest/condition-categories](https://www.ccwdata.org/web/guest/condition-categories)

[^ Back to TOC ^]
**DRUG_MEDICARE_EVER**

**LABEL:** Drug Use Disorders First Ever Occurrence Date — Medicare Only Claims

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the drug use disorder indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** DRUG_MEDICARE_EVER

**LONG NAME:** DRUG_MEDICARE_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** —

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
**ENRL_SRC**

**LABEL:** Enrollment Source  

**DESCRIPTION:** This variable indicates the source of enrollment data.  

**SHORT NAME:** ENRL_SRC  

**LONG NAME:** ENRL_SRC  

**TYPE:** CHAR  

**LENGTH:** 3  

**SOURCE:** CCW  

**VALUES:**  
- EDB = Enrollment Database  
- CME = Common Medicare Environment  

**COMMENT:**  
The Centers for Medicare & Medicaid Services (CMS) has updated the Medicare enrollment source data for the Master Beneficiary Summary File (MBSF). As of March 2017, the MBSF includes Medicare enrollment information from the CMS Common Medicare Environment (CME) rather than the Enrollment Database (EDB). Data from the two sources was nearly identical. The CME improves the identification of Medicare Part B enrollment and also allows for more timely release of the MBSF.  

The universe of beneficiaries in the CME versus the EDB version of the MBSF are only slightly different.
EPILEP_MEDICARE

LABEL: Epilepsy End-of-Year Indicator — Medicare Only Claims

DESCRIPTION: This variable indicates whether a beneficiary met the condition criteria for epilepsy as of the end of the calendar year.

SHORT NAME: EPILEP_MEDICARE

LONG NAME: EPILEP_MEDICARE

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The condition variable requires beneficiaries to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For epilepsy, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the two-year reference period. When two claims are required, they must occur at least one day apart.

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage 1 = Beneficiary met claims criteria but did not have sufficient FFS coverage 2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage 3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The condition variable requires beneficiaries to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For obesity, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the two-year reference period. When two claims are required, they must occur at least one day apart.

You can find more detailed information on the criteria on the CCW website: https://www.ccwdata.org/web/guest/condition-categories
OBESITY_MEDICARE_EVER

LABEL: Obesity First Ever Occurrence Date — Medicare Only Claims

DESCRIPTION: This variable shows the date when the beneficiary first met the criteria for the obesity indicator. The variable will be blank for beneficiaries that have never had the condition.

SHORT NAME: OBESITY_MEDICARE_EVER

LONG NAME: OBESITY_MEDICARE_EVER

TYPE: DATE

LENGTH: 8

SOURCE: CCW (derived)

VALUES: —

COMMENT: The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
**LABEL:** Other Developmental Delays End-of-Year Indicator — Medicare Only Claims

**DESCRIPTION:** This variable indicates whether a beneficiary met the condition criteria for other developmental delays as of the end of the calendar year.

**SHORT NAME:** OTHDEL_MEDICARE

**LONG NAME:** OTHDEL_MEDICARE

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**
- 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
- 1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
- 2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
- 3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The condition variable requires beneficiaries to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For other developmental delays, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the two-year reference period. When two claims are required, they must occur at least one day apart.

**OTHDEL_Medicare_EVER**

**LABEL:** Other Developmental Delays First Ever Occurrence Date — Medicare Only Claims

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the other developmental delays' indicator. The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** OTHDEL_Medicare_EVER

**LONG NAME:** OTHDEL_Medicare_EVER

**TYPE:** DATE

**LENGTH:** 8

**SOURCE:** CCW (derived)

**VALUES:** —

**COMMENT:** The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).

[^ Back to TOC ^]
**OUD_ANY_MEDICARE**

**LABEL:** Overarching OUD Disorder (Any of the Three Sub-Indicators) — Medicare Only Claims

**DESCRIPTION:** This variable is the Overarching Opioid Use Disorder (OUD) indicator, which identifies whether a beneficiary met any of the three opioid-related sub-Indicators as of the end of the calendar year. Beneficiaries who were identified as meeting the criteria for any of the following, also meet the criteria for this overarching indicator: OUD_DX_MEDICARE, OUD_HOSP_MEDICARE, or OUD_MAT_MEDICARE.

**SHORT NAME:** OUD_ANY_MEDICARE

**LONG NAME:** OUD_ANY_MEDICARE

**TYPE:** NUM

**LENGTH:** 1

**SOURCE:** CCW (derived)

**VALUES:**
0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage
1 = Beneficiary met claims criteria but did not have sufficient FFS coverage
2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage
3 = Beneficiary met claims criteria and had sufficient FFS coverage

**COMMENT:** The condition variable requires beneficiaries to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For the overarching opioid use disorder indicator, beneficiaries must have met the criteria for at least one of the three opioid-use disorder sub-category conditions:

- Diagnosis and Procedure Basis for OUD (OUD_DX_MEDICARE),
- Opioid-Related Hospitalization or ED (OUD_HOSP_MEDICARE), or
- Use of Medication-Assisted Treatment (MAT) (OUD_MAT_MEDICARE).

You can find more detailed information on the criteria on the CCW website: [https://www.ccwdata.org/web/guest/condition-categories](https://www.ccwdata.org/web/guest/condition-categories)
**OUD_ANY_MEDICARE_EVER**

**LABEL:** Overarching OUD Disorder (Any of the Three Sub-Indicators) First Ever Occurrence Date — Medicare Only Claims

**DESCRIPTION:** This variable shows the date when the beneficiary first met the criteria for the Overarching opioid use disorder (OUD) condition indicator (Any of the Three Sub-Indicators). The variable will be blank for beneficiaries that have never had the condition.

**SHORT NAME:** OUD_ANY_MEDICARE_EVER

**LONG NAME:** OUD_ANY_MEDICARE_EVER

**TYPE:** DATE

**COMMENT:** The condition variable requires beneficiaries to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For tobacco use disorders, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the two-year reference period. When two claims are required, they must occur at least one day apart.

You can find more detailed information on the criteria on the CCW website: [https://www.ccwdata.org/web/guest/condition-categories](https://www.ccwdata.org/web/guest/condition-categories)
TOBA_MEDICARE_EVER

LABEL: Tobacco Use Disorders First Ever Occurrence Date — Medicare Only Claims

DESCRIPTION: This variable shows the date when the beneficiary first met the criteria for the tobacco use disorders indicator. The variable will be blank for beneficiaries that have never had the condition.

SHORT NAME: TOBA_MEDICARE_EVER

LONG NAME: TOBA_MEDICARE_EVER

TYPE: DATE

LENGTH: 8

SOURCE: CCW (derived)

VALUES: —

COMMENT: The earliest possible date for anyone in the CCW is January 1, 1999. If the beneficiary became eligible for Medicare after that, the earliest possible date will be some time after his/her coverage start date (i.e., the COVSTART variable in the Beneficiary File).
ULCERS_MEDICARE

LABEL: Pressure Ulcers and Chronic Ulcers End-of-Year Indicator — Medicare Only Claims

DESCRIPTION: This variable indicates whether a beneficiary met the condition criteria for pressure ulcers and chronic ulcers as of the end of the calendar year.

SHORT NAME: ULCERS_MEDICARE

LONG NAME: ULCERS_MEDICARE

TYPE: NUM

LENGTH: 1

SOURCE: CCW (derived)

VALUES: 0 = Beneficiary did not meet claims criteria or have sufficient fee-for-service (FFS) coverage 1 = Beneficiary met claims criteria but did not have sufficient FFS coverage 2 = Beneficiary did not meet claims criteria but had sufficient FFS coverage 3 = Beneficiary met claims criteria and had sufficient FFS coverage

COMMENT: The condition variable requires beneficiaries to satisfy both claims criteria (a minimum number/type of Medicare claims that have the proper diagnosis codes and occurred within a specified time period) and coverage criteria (Medicare FFS Part A and Part B coverage during the entire specified time period).

For pressure ulcers and chronic ulcers, beneficiaries must have at least one Medicare inpatient claim or two other non-drug claims of any service type with a related code in any position during the two-year reference period. When two claims are required, they must occur at least one day apart.
